### Itinerary

#### Day 1 - Friday - Pesaro

Free arrival in Pesaro in the morning and meeting with the representatives of the Registro Storico Benelli. A buffet lunch at the Club and a guided visit to the Museum will follow. At the "Officine Benelli", the official Benelli Museum, you will find 150 fully restored motorcycles plus various new arrivals ready to be restored by the club members. Motorcycle collection and explanation, followed by a welcome dinner.

#### Day 2 to day 7, from Saturday to Thursday - touring days in wonderful Marche and Umbria regions

Our vintage Benellis will take us along the proposed itineraries (between 70 and 220 kilometres) that will be chosen among the 12 proposed. Depending on the weather conditions and the "mood", we will decide where we will go and which bikes we want to use. Every day we will start and end back at our hotel near Pesaro. The fleet is at our disposal and each participant can use a different bike every day. The itineraries will take us from the Adriatic Sea to the Appennini Mountains through the hills of the Marche region. Let the music of Gioacchino Rossini, the painting of Raffaello and the motorcycle adventures of Valentino Rossi guide your way! Every day we will ride, visiting Museums, a Castle or an Ancient Village on our way. Our guides will take you to visit and enjoy this beautiful corner of Italy, still relatively unknown and free of the touristic invasions!!
